BLEMISH RELIEF

The face is cleansed with "ACNE WASH" a deep pore cleanser containing a combination of benzoyl peroxide and aloe gel, while gentle steam prepares the skin for extractions. A medicinal customized masque containing clay, camphor and sulfur is applied to the face which purges the skin to remove toxins and excessive oils. Sulfur is known for its healing and purifying properties. While the masque soothes your skin, a massage of your arms and hands relaxes your body.
